Issue Number 51

Editorial

As this issue of Broadsword magazine goes into print, the political parties of the British Establishment are running their General Election campaigns.

The democratic circus of British politics is in full swing backed by a complicit media; the stage managed news stories, posturing politicians, planted news items, and carefully choreographed electioneering stunts.

This is a rigged game. For all the focus groups, political forums and media interviews, the outcome will be carefully crafted. Professional politicians compete for status and power, surrounded by expensive PR teams and highly paid spin-doctors and researchers.

The real losers in this game of charades are the real British people.

Meanwhile those in authority continue to push the multi culturalist agenda, the banks and international finance houses continue to make money but subject the British people to austerity-

The television and radio companies maintain the charade by conning the British people that all is well, somehow Britain is still great, a key player on the world stage, internationally important, and if all else fails fall back on the tried and tested display of greatness and pageantry by putting the Royal Family on the front pages and on the TV screens.

Whatever it takes to keep the masses distracted.

WE ARE SORRY THAT THIS ISSUE OF BROADSWORD HAS BEEN LATE

As we have said in previous issues, the cost of printing and producing Broadsword magazine has increased and once again postal charges have greatly increased, making publication ever more expensive.

Broadsword will continue to hold the cover price and subscription price at the old level.

BUT - Broadsword is struggling to meet its costs and the last few issues numbers 48 to 50 did not come close to breaking even.

We urge our readers and supporters to help to increase the sales and circulation of Broadsword.

Broadsword needs extra sales.

Taking the Message into the Streets Avoiding the Traps Set By the State

Many times in the Werewolf Column we have argued the case against a return to the old 1970's and 1980's format of marches and mass turnouts.

The government's so-called PREVENT agenda and its related programmes target not only radical Islamic groups and individuals but also those the State classes as 'Far-Right' extremists. Senior police officers are left to determined as to what in their mind constitutes an 'extremist' and police resources are allocated accordingly. (usually hostile)

In the past couple of years this has been refined to cover any organisation opposed to immigration, racial diversity and multiculturalism.

The right to protest is now

rigidly controlled and surveillance and disruption are key elements of the PREVENT agenda.

Therefore British National Socialists and racial Nationalists must adapt to avoid the traps created by this kind of State control and intervention.

Turn out on protests can be affected by the tactics of the police. Including arrests at the end of the protest, usually a 'cherry-picking' action arresting the pre-identified targets on the Special Branch, 'persons of interest' data-base.

Agents provocateurs may well be planted in a march or static demonstration in order to incite more excitable individuals to commit violent or other arrestable acts.

Caution and discipline has to

be the general rule.

Stay sober before setting out, a victory drink is fine afterwards.

Draw the attention of the public for the right reasons, don't draw the attention of police looking for an easy arrest.

British Movement activists must maintain the identity of their organisation and be clear to all onlookers and participants that they are National Socialists and are from British Movement.

Recent protests such as those in Rotherham in the Summer of 2014, the Free Gary Yarborough protest in January 2015, the White Man March in Newcastle upon

Tyne in March 2015 are examples of where BM activists were noticeable by their dress code and their general discipline.

MULTI-RACIAL MADNESS

Broadsword looks at the stories and incidents drawn from across the media in Britain that best illustrate the depths into which our country has sunk, as the Government, the media, the police and the Race Relations industry conspire against the indigenous British people to impose a multi-cultural society on Britain. How British culture, values and traditions are undermined by political correctness, minority interests and racial equality. Stories which reveal the harsh reality of life in a multi-cultural Britain and the betrayal of the White British majority population.

**The Liberal-Left Has Set the Political Agenda
on Race and Immigration.**

**We Must Refuse to Accept 'Their' Rules
and Challenge 'Their' Dominance of Political Debate.**

Ever since the turmoil of 1968, the political Left have sought to dominate the political agenda in Britain and elsewhere in the West. Together with their angst ridden collaborators of liberal thinking, they have pushed ahead with an strategy defined by Leftist academics and opinion-shapers from the 1960's onwards, gaining influence in the media, education and public services.

The agenda on all matters relating to race is set by the Left, in every aspect of British politics and public life the big stick of accusations of '**RACISM**' sends politicians, teachers, civil servants and journalists scuttling for cover, loudly denying that they are in any way '**racist**'.

Too many political figures and opinion-shapers have caved in to this Left-wing/liberal bullying. Too many public figures have backed off from arguing against multi-culturalism and a multi-racial society because the loud-mouthed, Marxist inspired defenders of a global population have pointed the finger of accusation and screamed "**RACIST!**".

Nothing illustrates this better than the summersaults performed by UKIP leader Nigel Farage in March 2015. Farage correctly stated that Britain's anti-discrimination laws need to be scrapped, but no sooner had he said this in a TV debate, than the hyenas of multi-culturalism were howling that this would be '**racist**'.

Farage immediately back-tracked and covered his backside by stating that he was "mis-interpreted" and that UKIP is a "**colour-blind**" political party.

Once again the liberalists and the Left have set the agenda, politicians panic when accused of racism. There is currently an ongoing campaign by professional anti-racists against UKIP and every other political organisation to the so-called 'right of the Tory party' in the run up to the 2015 General Election.

Well funded speaking tours preach to the converted about the evils of 'racism' (or "**Waycism**" and "**Waycists**" as one lisping professional anti-racist pronounces it.)

The time has come for some back-bone. Time to refuse to accept the parameters set by the Left.

To believe in the in-equality of the races is **NOT WRONG**.

To believe in a mono-racial society is **NOT WRONG**.

To oppose multi-culturalism is **NOT WRONG**.

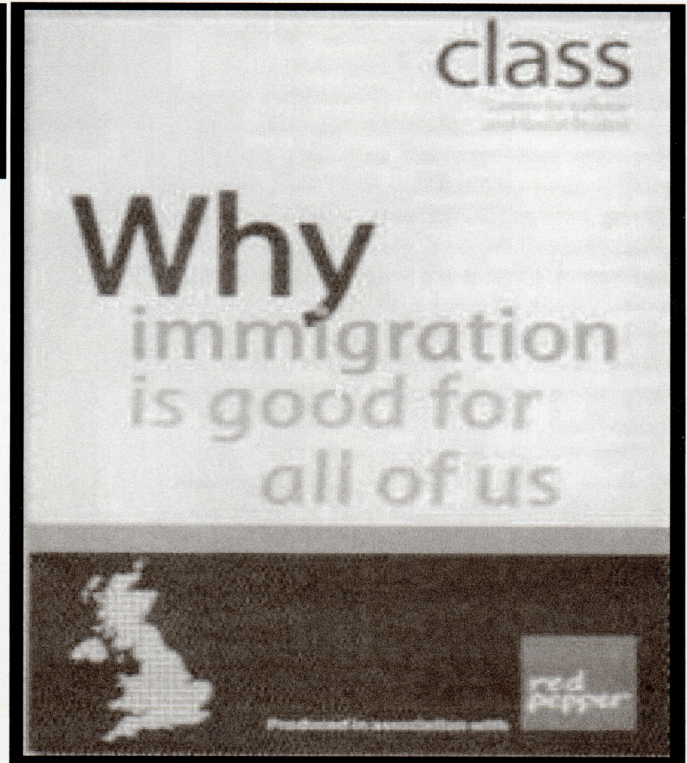

To oppose a multi-racial Britain is **NOT WRONG**.

To oppose race-mixing is **NOT WRONG**.

To oppose mass immigration into Britain is **NOT WRONG**.

It is time for British National Socialists and racial Nationalists to reclaim the moral high-ground.

WE are defending the rights of OUR people in OUR homeland not to be forced to accept a mongrelised multi-racial future. That is **NOT WRONG!**

Pictured above is just one example of a deluge of expensively produced publications currently being printed and circulated by Left-wing organisations as part of a political campaign to convince the British people that immigrants are good for the economy and that migrants and asylum-seekers allegedly 'enrich' Britain and British culture. The Left are desperate to counter the anti-immigration news headlines and want to whitewash the negative impact of immigration and multi-culturalism on Britain and British society.

Immigrant welfare organisations, race relations bodies and every kind of Leftist groups have been holding meetings, conferences and trade union delegations to try to swing popular opinion away from anti-immigrant feelings.

Coupled to this are similar campaigns to counter anti-Islamic (so-called Islamophobia) and negative attitudes towards East European Roma and illegal immigrants and refugees. The Left are even trying to convince journalists not to write articles critical of immigrants or ethnic minorities.

MULTI-RACIAL MADNESS

2015 -Record Numbers of Migrants are Crossing the Mediterranean to Enter Europe

Since the beginning of January over 18,000 African, Asian and Middle-Eastern refugees, asylum-seekers and economic migrants have landed on the coast of Italy, Thousands of others are entering Spain and Greece, it is a flood that is even greater this year than last year.

Thousands of these people want to cross Europe to get to Britain, they will do whatever it takes to get into the UK. Left-wing and so-called 'Human Rights' organisations are trying to put pressure of the British and other European governments to rescue those at sea, prevent the mass drownings and fund "new lives" for these migrants in Western Europe and the UK. The political Left no longer refers to these people as illegal immigrants, Left-wing activists want them classed as having "irregular immigration status".

Britain and Europe cannot be held responsible for the surplus populations of the Third World. SEND THEM BACK !

RIP KRISS DONALD

**Joshua Bradley from Bulwell, Nottinghamshire, age 19 years.
Stabbed to death on Thurwell Street, Nottingham on Sunday 8th of February 2015.**

The official version of Joshua Bradley's death is that he died "as a result of injuries sustained in a fight at 4 am on Thurland Street on Sunday February 8th 2015."

Four men have been arrested and charged in connection with this crime, the descriptions of the arrested men, their names and their addresses tell an interesting story as to their ethnic origins.

A 24 year old man is charged with murder; Richard Johnson of Hyson Green, Nottingham (a multi-racial district); he was described in court as wearing his hair in dreadlocks.

Charged with violent disorder were; Muhamad Adnan, age 22 from Middleton Boulevard; Azeem Khan are 28 of no fixed address; Callum Levi Ibrahim age 22 from Edwalton.

Joshua Bradley has joined the long unhappy list of White British men and women who have been murdered by non-whites; such as Gavin Hopley, and Kriss Donald. These are racially motivated crimes against White people but in the 'interests of community cohesion' the media, the politicians and the police refuse to accept that this is the case.

Golden Dawn Remains Defiant

One Year On - Golden Dawn Remembers Their Fallen

Report by our Athens correspondent

“ On the first of November 2013 a small group of Golden Dawn members were attacked by communist terrorists in front of the party's offices at Hiraklio Attikis.

Comrades GEORGE FOUNDOULIS and MANOULIS KAPELLONIS died instantly, while another comrade was very heavily wounded. Now, a year later, the police (ha!) and the authorities have done NOTHING at all towards finding and arresting the Red terrorists. We are not surprised.

But on the night of 1st November 2014 about 5,000 Greek Nationalists and some 40 Italian comrades gathered at the site of the shooting to honour the everlasting memory of those noble martyrs of our Cause. Amongst us were the father of George Foundoulis, Lambros Foundoulis, now a Euro-MP with Golden Dawn.

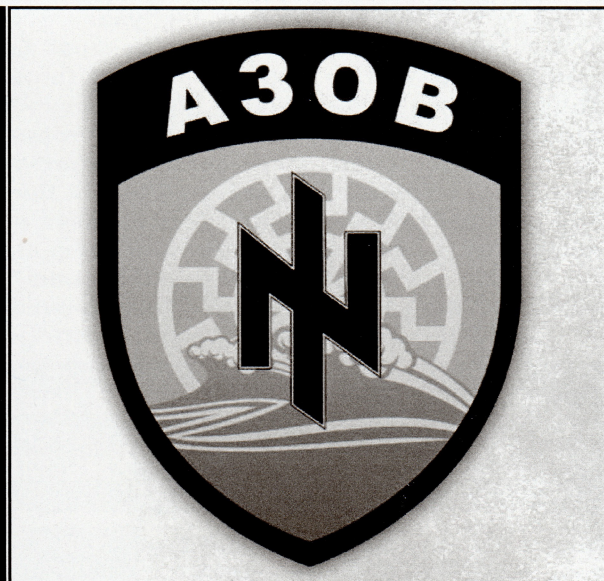

We marched solemnly and defiantly in the cold, clear night to the gates of the local cemetery, where the body of our brother George Foundoulis was laid to rest a year ago.”

The situation in Ukraine is a complicated combination of factors, including the direct interference of NATO, the USA and European Union.

Russia is trying to re-build the old Soviet Union land mass without the Communist state and the USA and NATO are using the Ukraine to challenge Russian leader Putin. Other factors are involved including both Ukrainian and Russian left-wing elements and 'dabbling' by Zionist factions.

OVERSEAS NEWS & VIEWS

FEBRUARY 27TH - MARCH 1ST 2015
BRITISH MOVEMENT DELEGATION TO SPAIN

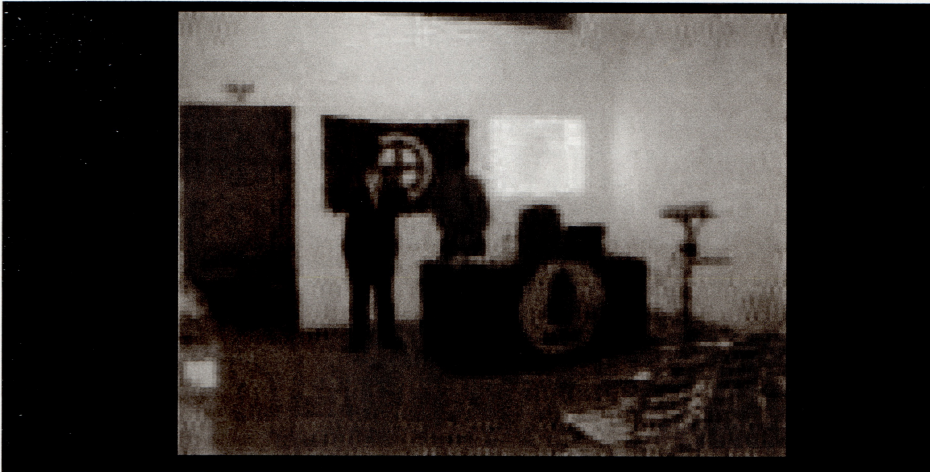

A group of six British Movement delegates travelled to Spain as guests of the Spanish racial Nationalist organisation MSR. The British Movement group visited MSR projects in both Madrid and Zaragoza; attended an MSR Youth building in Madrid; a social housing/food bank building in Madrid and a similar project in Zaragoza. Two of the BM group were speakers at a regional MSR meeting in Zaragoza, sharing a platform with Spanish speakers and guest speakers from Germany (NPD).

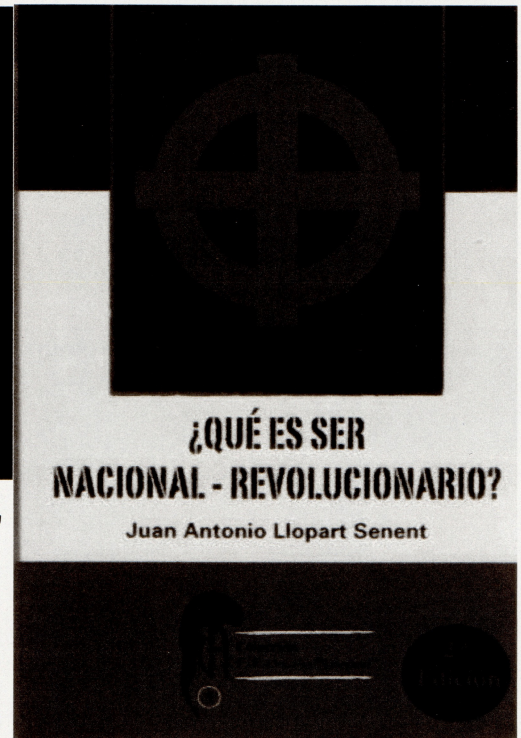

The MSR has developed a series of social welfare projects in a number of Spanish towns and cities in order to alleviate the conditions that many ordinary Spaniards find themselves as the Spanish economy declines and unemployment rises.

The BM delegates were there to observe the MSR food banks in operation, were shown clothing banks and functioning social housing projects for homeless Spanish families.

The MSR also operates soup kitchens and open air food distribution events in some low income neighbourhoods.

A British Movement activist addresses the MSR meeting in Zaragoza, the MSR official alongside translates his speech. The MSR officers hosting the BM delegation made it clear that they have seen what mass Third World immigration has done to Britain and are fearful that Spain may well suffer a similar fate as the flood of Africans and Asians into Europe is starting to affect mainland Spain and ethnic minority communities are settling in Spanish cities.

The BM delegates were hosted by the MSR Madrid region and were shown a great deal of comradeship and generous hospitality. In the face of a common threat of mass Third World immigration and economic globalisation it is essential that the various racial Nationalist and NS organisations of Europe co-operate and work together against this common threat to our nations and people.

THE WHITE BRITISH ARE STILL THE MAJORITY IN THE BRITISH POPULATION BUT TIME IS RUNNING OUT - TIME IS AGAINST US

The last national census showed that the non-white population of the United Kingdom is rising. Not only rising but expanding with every fresh wave of immigrants settling in the UK (both the legal and the illegal).

Add to this the rising population of those classed as 'mixed-race' and the obvious threat to the purity of the British genetic pool is clear.

If the White British are to survive in the long term it is essential that we not only see the White British birth rate rise, but that we intensify the campaign against inter-racial breeding and race-mixing.

WILL THIS NIGHTMARE NEVER END ?

**Why can't the Establishment politicians recognise that this is a
poisonous by-product of multi-racial Britain ?**

As 2015 begins, there are more arrests, more investigations into 'child sexual exploitation' by gangs of so-called 'Pakistani-heritage men' in northern towns and cities.

The Police roughly pushed aside White protestors as the latest batch of accused Asian men were taken into court in Halifax. The trial will take place in Leeds later in the year, but the accused were from Halifax, Bradford and Huddersfield areas.

Meanwhile police investigations continue into past grooming cases in Sheffield and Rotherham.

Then in a separate case ten men of the now familiar ethnic background were arrested and charged in Rochdale, with the prospect of yet another Rochdale grooming trial. Meanwhile the national media tries

to ignore developments in the North-East of England where there are arrests and trials taking place around Asian grooming gangs operating around Newcastle on Tyne and Sunderland.

Investigations and arrests continue across Greater Manchester as part of the ongoing Operation Doublet, all part of the spill-over from Rochdale.

Then just to show that it is only a problem in the North, there are increasing numbers of leaked rumours coming out of Oxfordshire and the Thames Valley about likely revelations of a wider network of grooming gangs that were first identified and prosecuted in the Oxford grooming gang trial a couple of years ago.

When will it end ?

EVERY PICTURE TELLS A STORY

In This Case A Leaflet

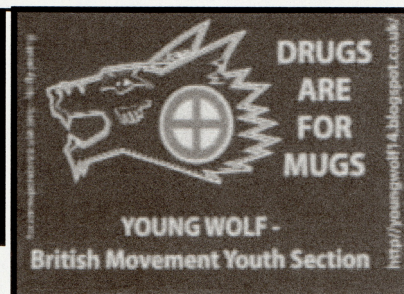

The images used to illustrate this leaflet produced and circulated in the London Borough of Redbridge tells an undeclared story about the population make up of this part of Britain's capital city.

Only three white faces, all of them male (which suggests homosexual) All the rest are black or mixed race. Does this mean that white women in the Borough of Redbridge are unlikely to contract HIV ?

Does it suggest that mostly non-white people in the borough are likely to carry HIV ?

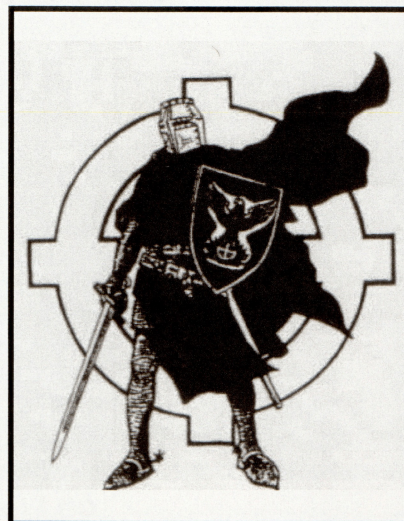

Or is it the case that HIV is common in recently arrived Africans and is still common and circulating amongst white homosexuals ?

Broadsword would suggest that the image of 'Positive East' is not a positive image for what diversity has brought to London.

A National Socialist View of Life in Britain's Capital City
The Struggle For Survival of White British Londoners in the Swamp of Multi-Racial Chaos
and Enforced 'Diversity' That Has Taken Over Greater London

By Broadsword correspondent Ed London.

Now that the White British are officially an 'ethnic minority' in London it is even more interesting to see how the 'majority' non-white communities conduct themselves and contribute to the diverse cultural and economic life of Britain's 'First City'.

THE GREAT TASK AHEAD

In the wake of the May 2014 local elections this is how one London dwelling non-Aryan Leftist described Britain's capital city...

"London's glory is its diversity - 7 million people, 14 faiths and 300 languages - it's the most multi-cultural city in the world."

It is a fact that official statistics show that in 2015 40% of the population of Greater London is non-white.

That is the challenge to all British National Socialists and racial Nationalists - London-our capital city is temporarily lost to us. That is not to say that this situation has to be permanent.

Before we can take London back we must awaken and reclaim the rest of our country - then, and only then can we begin the final battle and take London back for the White British.

In the meantime, those White British racial activists who through circumstances are forced to live and work in the cosmopolitan ant-heap that is 21st Century London, must consider themselves as part of the resistance in an enemy occupied and controlled city, and they must work to build up their network with their ultimate goal the Day of Liberation!

Chelsea must lead response to racism

Events on Paris Métro are not a one-off but clubs cannot stamp out this poison without support of authorities

Chelsea warn fans over antisemitism at Wembley

Domestic World

Chelsea have warned supporters they will take the strongest possible action against any group of individuals who are antisemitic at Tottenham Hotspur fans during the Capital One Cup final.

The club, having consulted the Metropolitan police and Spurs, and conscious of events on the Paris Métro last week, published a statement on their website overnight reminding supporters of their responsibilities at Wembley on Sunday.

Chelsea pointed out that terms used by some fans "as a form of identity" by implication the word "Zion", which has been adopted by large sections of the

Tottenham support - can also be considered deeply offensive. "For a small minority, this game has historically brought a deeply unpleasant and unwelcome level of antisemitic abuse, which has no place in football at anywhere in society," read a club statement. "As such, we urge everyone to keep their support positive."

Chelsea have been in consultation with the Met police over potential crowd incidents against Spurs in the wake of recent events in Paris

"Opposition supporters using terms as a form of identity is no excuse for abusive chanting or behaviour. If we receive evidence supporters have engaged in anti-semitic or any other form of discriminatory chanting or behaviour, we will take the strongest possible action, including supporting criminal prosecution."

Chelsea have suspended five fans allegedly filmed singing "We're racist" and pushing a black centrist from a Paris Métro train. Seven men sought in connection with racist chanting at Chelsea's 4-1 draw with Paris Saint-Germain have also been identified, the British transport police have confirmed.

ists is hateful and meant to be. But it has for decades this appeared, continues it troubling, appears to be more now. Describe the people as "Chelsea" because this violence things. Following suspecting strangers behaviour are, by mutually exclusive itself is an athletic its pure form the an activity that tells human beings are sets us out are the most basic, talent, instigate the basic stands as a force shared purpose. That anti-racism

famines began to appear on the terraces. Inclusivity and tolerance are also long-standing and entirely natural parts of the sport.

And yet here we are again, with football once more the rallying point for the most divisive and most poisonous. And still it isn't a surprise, even for those who witnessed the brutal racism of pre-modern times and have felt some encouragement, periodically, that it has gone. In the mid-1980s, racism on the terraces was a kind of shared, portable anger. At Millwall the fans would chant "Zion" and worse while John Fashanu, forced to react one way or another, would play up to it, snorting about and rolling his eyes, producing a kind of desperate pantomime to draw some cheer among the bile.

Progress seemed to follow similar progress in society. Crowds are more mixed now, even more so in the Football

League - and notably this week in the FA Cup - which is perhaps a function of cost and accessibility. But the old poison has still lingered on.

It must be said this is not a club issue. Even the most gentrified are affected. I have sat on a train listening to a group of Arsenal "fans" chanting about Auschwitz and gassing Jews. It is a societal issue. Football doesn't make people racist. But it does give them a mouthpiece and a monster point, and a response is required after the incident in Paris. A stand must be taken. This cannot be allowed to pass.

It may be hard to identify the people involved, although the pictures look fairly clear. The various authorities could play dumb and plead an inability to establish any real connection between their own sphere of influence

MOVING FORWARD

The Ongoing Struggle
to Bring National Socialism
to 21st Century Britain

British Movement is an extra-parliamentary organisation, it operates and campaigns outside the electoral system to effect change by building a mass movement of activists and a British National Socialist counter culture.

THIS IS HOW IT WAS..... Dr Goebbels speaks on the streets of Berlin, pre-1933. Flanked by SA men including those wounded in street battles with the Communists.

The fragmentation of society, of neighbourhoods and communities along racial, ethnic and cultural, perhaps even religious lines is an inevitable consequence of the artificial condition known as multi-culturalism.

Despite the best efforts of the State with its powers to defend 'community cohesion' and the

THIS IS HOW IT WAS... THIS IS HOW IT WILL BE !

As British society begins to splinter and fracture along racial and cultural lines, the struggle to control the streets and to bring the National Socialist message to the White British people will be a time of challenges and conflict, of confrontation and sacrifice. Older Movement activists will have seen this all before. But as the System collapses it will be harsher and bloodier.

falsehood of 'diversity', a fracture between ethnic groups is a future development that no amount of Home Office spending, public coercion and 'Prevent' projects can avert.

It is not a matter of "if" but "when".

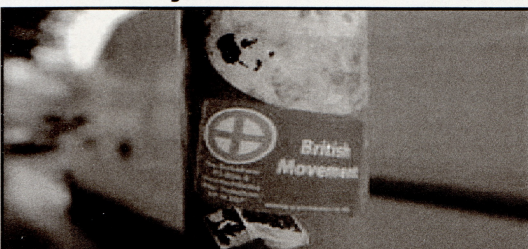

Austerity, poverty, and a population competition for

diminishing services and resources will create the conditions where the ordinary non-political White British people will look for answers, for a social and political life-line.

National Socialism will be their radical choice because no one else will offer the solutions.

Britain's Decline - 1945 to 2015

70 Years of Decay, Betrayal and Degredation

1945 to 2015 - Seventy years on from 'Victory in Europe' or Seventy years of terminal decline.

Often when discussing the negative impact of mass immigration and multi-culturalism on Britain, one is often confronted with the resigned response;

"Yes, well I agree with you, but it's too late now, you can't turn the clock back."

A defeatist attitude if ever there was one, but does that mean that they accept Britain's current situation as irreversible?

Worse still are the liberal apologists for a multi-racial Britain, who mockingly state that any calls for a halt to immigration and repatriation of non-whites, is a pipe-dream where racists want to return to a Britain of the 1950's.

For British National Socialists and racial Nationalists, neither situation is true. What we want is a general admission and recognition that despite all the pre-1945 promises by the wartime Establishment, things never got better only worse, and that the great liberal democracy system has massively and effectively undermined Britain and threatens to destroy British culture, heritage and our national gene-pool.

Immigration was already a problem before the outbreak of war in September 1939 as thousands of Jewish refugees were arriving in Britain. In the immediate post-war period mass non-white immigration began as the 'Empire Windrush' docked in Britain starting the wave of black migrants from the West Indies. In the 1950's and 1960's it was hundreds of thousands of Indians, Pakistanis and West Africans, followed in the 1970's by Asians expelled from Uganda, Kenya and Malawi. Then the great refugee flood of Vietnamese and assorted Arabic nationalities. From the 1970's to the present day Britain has seen a flood tide of every non-white nationality and the multi-culturalists have forced the native British people to swallow this bitter pill. Successive governments have betrayed Britain's culture and economy, at the same time as non-

whites were being encouraged to come to Britain to work in the hospitals, public transport, and factories, skilled White British families were being encouraged to sell up and emigrate to Australia, Canada and New Zealand. The best of our people were being persuaded to leave the homeland while the surplus population of the Third World was invited in to replace them.

In the 1960's and 1970's the cultural and political Marxists seized the initiative and rode on the backs of the 'Pop Revolution' to effectively dominate the world of education, to promote liberalisation of all facets of traditional life, to undermine family values, encourage the legalisation of Homosexuality, and to ensure that a liberal-leftist agenda was firmly rooted in all aspects of education, social work, health care provision and local government.

Opposition to change and betrayal was effectively stifled by the passing of pro-multiculturalist laws and freedom of speech and expression on racial matters was criminalised.

The British currency and economy was globalised in controlled stages; first decimatisation in 1970, then Britain signed up to the Common Market (European Union) and began the merging of British financial institutions with international ones.

Major British companies were taken over by foreign rivals, trans-Atlantic companies began to dominate the British markets and stealthily British utilities were first 'privatised', then sold on to foreign energy companies. Large parts of British towns and cities are now owned by overseas investors, the public transport networks are being sold off to foreign control, British farms and the countryside, city centre properties and housing, all are being traded off to foreign buyers. Even British football teams are now not only stuffed with overseas players but are being bought up by non-British business interests.

Britain is being sold to the highest bidders.

From 1945 to 2015 - Seventy years of change

The negatives outweigh the positives.

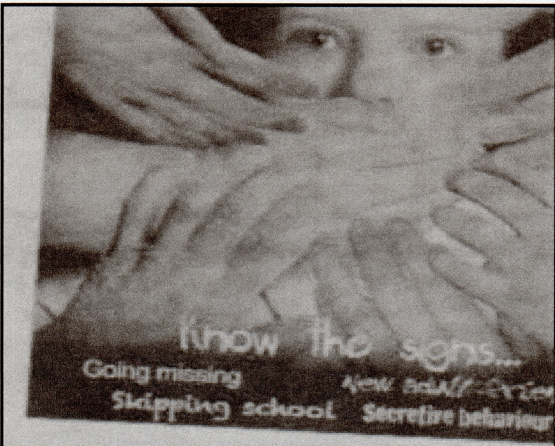

Forget the technical, scientific and material advances - look what has happened to OUR Country. Time to turn the clock back!

1945 - 2015

These Are Some of the Negative Things That Immigration Has Brought into British Society

Multi-culturalism, Multi-racial neighbourhoods, the Race Relations Industry, Political Correctness, Child Marriages. Operation Trident -(Black on Black shootings), Chinese Triads, Yardies, Race riots, 'ethnic minorities', race-mixing, asylum-seekers. Islamic -Jihadist terrorism, Child Sexual Exploitation-Grooming gangs, Female Genital Mutilation (FGM), Honour Killings, Forced Marriages, Sham Marriages, Halal Slaughter, Kosher Slaughter, Bush Meat, Crack Cocaine,Skunk and Heroin.

IF THESE PEOPLE HAD NOT BEEN ALLOWED TO SETTLE HERE - THESE PROBLEMS WOULD NOT EXIST

UNDER ATTACK !

European Union technocrats seek a 'legal' means to enforce "tolerance" and to eradicate National Socialism and racial Nationalism by the back-door

The old expression "every cloud has a silver lining" could easily be applied to the recent spate of jihadist terrorist attacks in France and Denmark.

Using the rise in anti-Zionist and anti-Jewish actions by the Muslim fundamentalists living in Britain and Europe, European Jewish organisations are putting pressure on the Euro MEP's to pass new laws outlawing 'intolerance'.

On the surface these demands appear to be aimed only at Islamic militants and their fellow travellers, but a scrutiny of the proposed measures reveals a secondary motive. The ultimate aim of the proposed new laws is alleged to be to protect the multi-racial and multi-cultural communities in Europe by outlawing intolerance of other faiths and races, and protecting ethnic diversity with the added bonus of stamping out anti-Semitism.

But the wording of the planned legislation shows that White racial Nationalism and National Socialism are also targets for eradication.

The carefully worded clauses state that the new laws would criminalise,

"overt approval of a totalitarian ideology, xenophobia or antisemitism."

By totalitarian ideology, the proposers of the new laws do not just mean an admiration for the creation of an Islamic caliphate or the approval of a rigid Islamic state like Iran, but all political ideas based on a total belief system including those built

on theories about race and ethnicity.

Under the new proposals it would become illegal to express an admiration of Fascism or National Socialism. A positive interest in the Third Reich would become grounds for arrest, and racial Nationalist politics would become a crime overnight. Hiding behind words like "tolerance" the agenda of the European Jewish Congress and the European Council on Tolerance and Reconciliation has become clear.

Note: As part of the Conservative Party election promises for the General Election 2015, a new initiative against "extremism" is being promised. While many British voters think that this means a strengthening of existing laws and new moves against Islamic extremism; radical Muslim fundamentalist preachers and the recruitment of jihadists, the State quietly included ALL radical elements within the scope of the initiative. In order to calm the anxieties of so-called 'moderate' or mainstream Muslims, the government claims to be even-handed and assures them that it will take equal measures against so-called "racist organisations". Which in principle means further surveillance and disruption of legal British racial Nationalist and anti-immigration organisations. It goes without saying that the police will re-double their efforts to restrict and curtail marches and demonstrations by what the State terms "Far-Right groups".

NATIONAL SOCIALISM 'THE GREAT IDEA'

Several Years Ago a Greek NS Activist Described National Socialism as the 'Great Idea' - Now Broadsword Magazine Begins a New Series of Articles Exploring the Meaning and Ideology of British National Socialism in the Opening Decades of the 21st Century.

"The Complete Victory of a New Conception of Human Existence Takes Time"

Adolf Hitler 1932

National Socialism has not stood still since its inception in the years immediately following the Great War, It is an organic political belief system, originally forged in Germany, but taken up in numerous other European countries during the 1930's, as well as amongst White European colonists across the globe. After the defeat of Germany and her Axis allies in 1945, the victorious nations tried to eliminate every last vestige of National Socialism. However, in spite of the Europe wide persecution of National Socialists and the extremes of the US inspired 'de-nazification' programme and the bloody repression and mass killings carried out by the Soviet Union and the assorted Communist satellite states, National Socialism survived. Undaunted by the shattering defeat of the Third Reich and the elimination of the NS leadership of Germany, Austria, Norway, Denmark, the Netherlands, Croatia, Hungary, Slovakia, France, and Belgium, (the Wallonian Belgian NS leader Leon Degrelle being an exception), an underground NS movement continued. In the decades that followed, NS movements carried the torch and kept the ideology alive. In Britain, Sir Oswald Mosley's British Union of Fascists and

National Socialists; Arnold Leese's Imperial Fascist League and the tiny National Socialist League, had all been crushed by wartime Defence Regulation 18B.

However, the cause had not been destroyed and the dedicated elements (some called themselves the True Believers) slowly came back together and began to reconstruct a British National Socialist organisation.

From the 1960's to the present day, the NS ideology has adapted and developed to reflect the changes in society caused by the geo-political, economic and technological forces shaping the modern world.

In Britain and Western Europe, the impact of mass Third World immigration has generated a need for racially based politics. Only National Socialism offers a real solution to the long term threat to British and Western culture and genetic heritage posed by the huge influx of non-white people into the heartland of European civilisation.

So too the post-1945 power and influence of the international Zionist power brokers centred on the State of Israel and supported by Zionist influence on the foreign policy, economic and military strategies of the USA and the European Union.

There is a need and a future role for The Great Idea.

**We Will

Country
Back**

"A time will come when National Socialism will become the political philosophy of the entire world, modified by racial and geographical differences and adapted to the character and needs of the various nations."

SA Chief of staff Ernst Rohm - Berlin, December 7th 1933.

The '14 Words' - the principle is the bed-rock of 21st Century National Socialist thinking. In just 14 Words the basic tenets of National Socialism are condensed into a motto that is easily understood and states exactly what the motivation of British Movement is about.

British Movement - SCOTLAND

**IN SCOTLAND A SENSE OF NATION AND BELONGING STILL HOLDS TRUE.
IN SCOTLAND THERE REMAINS A SENSE OF FOLK, AS YET UNCORRUPTED BY ALIEN
NOTIONS OF MULTI-CULTURALISM.**

**THE SNP (Scottish National Party) IS MULTI-CULTURALIST IN NATURE AND PURPOSE
THEREFORE BRITISH NATIONAL SOCIALISM MUST SEIZE THE FERTILE GROUND OF
SCOTLAND AND TAKE ROOT BEFORE THE FOLK OF SCOTLAND LOSE THEIR SENSE OF FOLK
RACE AND NATION.**

BRITISH MOVEMENT (The British National Socialist Movement) makes no secret of the fact that it is keen to build and develop its network across Scotland. From the Borders to the Highlands, from the Firth of Forth to the Western Isles.

Scotland has so far managed to escape the worst ravages of Third World immigration and the creeping poison of multi-culturalism, but time is against it. Certainly Scotland's towns and cities have not seen the non-white colonisation experienced by parts of England and Wales, but some key cities like Glasgow, Edinburgh and Aberdeen are already showing some of the tell-tale signs of high density non-white settlement. This is particularly true of some districts of the 'Greater Glasgow' area.

The warning signs are there, but so far the majority of Scots have failed to heed the message.

Did the murder of Kriss Donald by a Glasgow based Asian drug gang not sound any alarms?

When the SNP allowed a Pakistani councillor to swear his oath of office in Urdu, did that not sound

any alarms?

When the Labour Party chose a Pakistani born candidate as the Member of Parliament for Glasgow was that not a sign that traditional Scottish working-class districts were being colonised?

To see where this will lead they only need to look south of the border and take a long hard look at English cities like Bradford and Leicester. That is the future if the Scottish people do not take off the blinkers and start to think in terms of race and folk.

Scotland has an overall population of less than 7 million people, it will not take long for a growing immigrant population to overwhelm that in a matter of decades. What then for the Scottish people? For those who fret that Gaelic may disappear as a language and hide behind SNP Tartan nationalism, the threat of real Scottish heritage and tradition being destroyed is very real - it will be drowned by a rising tide of Third World immigration.

True Scots pushed to the fringes by the SNP's 'New Scots'.

Blood & Biology

The Ideological Roots of 21st Century National Socialism

The Ideological Roots of Modern National Socialism are to be Found in the Principles and Theories Laid Down in the Germanic-SS in the 1940's.

The Germanic-SS Developed the Concept of a Pan-European National Socialist Movement Which Embraced All European Nations. Those ideals Spread Beyond 1945 and Evolved Into the Form of National Socialism Advocated by British Movement Today.

YOUTH

In the second decade of the 21st Century it is highly unlikely the youth of Britain or almost anywhere in Western Europe could be mobilised along the lines of the 1930's and 1940's uniformed National Socialist youth organisations. The mind-set of modern youngsters, especially of those between the ages of 10 and 16 years of age has been almost totally re-shaped away from racial awareness by the current education system.

The Challenge of Youth - In Order to Realise the Fulfillment of the '14 Words', we have to win back the minds of our youth. The vast majority of White British teenagers and children have absorbed the systematic indoctrination of 'anti-racism' and 'multi-culturalism'. We must re-instil racial awareness, national pride and the values of the '14 Words'.

14 Words

'We must secure the existence of our people and a future for White children.'

This is the blue-print for Britain and Europe's racial and cultural survival. The meaning of the '14 Words' is entirely in keeping with the ethos of the pre-1945 Germanic-SS and the racial theories of the pre-1945 National Socialists.

Now the survival of our race, our genetic legacy, our Folk and culture is under greater pressure than ever before.

A rejection of National Socialism and all aspects of the racially based ideology is built into the modern education system. While other aspects of British history are dropped from the school curriculum, the study of the 'evils' of the Third Reich and the unacceptable 'racism' of National Socialism and Fascism are hammered home at every opportunity. Children are schooled to accept the non-whites and to re-ject their own culture and heritage in favour of a 'new' sanitised and multi-racial vision of Britain's future.

As British National Socialists we have a mountain to overcome in order to re-shape the thinking of the average British teenager or school age child.

The multi-culturalists and anti-racists have spent decades perfecting their Marxist re-education of British children, and the resources at their disposal are extensive and persuasive.

However, the appeal to racial awareness and racial consciousness is an appeal to something that lies deep within the hearts (dare we say the souls?) of every White British adult and child.

While the schools and education system might have buried their racial awareness and sense of racial identity, it remains within the hearts and minds of our youth and children, dormant and waiting to be re-awakened.

It is our task to lift the fog of multi-culturalism from their minds, to liberate their sense of race and of belonging. We must restore their sense of Blood and Soil belonging, of being part of something greater, their Folk and Nation.

We must show our youth how their birthright has been taken from them and how they must fight to take THEIR COUNTRY BACK !

Dear British Movement

I was given some info about you and your beliefs,
and I totally agree.

I live in a small town in Wales; today there were three Romanians in town one selling the "*Big Issue*" and two f***** accordion players!

I have complained to the local bosses at "*Big Issue*" because I sell it here. I told them that one of the Roma "*Big Issue*" sellers drives a B.M.W and has a cell phone.

At this time of year he goes off to take all his money back to Romania. This same vendor has ten members of his family over here skanking money off uneducated local people. Then they go back to Romania taking the money out of this country.

I HATE THEM ! but don't know what to do about it. They are basically a criminal gang taking the p*** out of ignorant British people.

I have just got a flat after being homeless for two years, and with no benefits, yet THEY are re-housed within months.

What can I do to stop them?

I can't do anything about it myself just now because my bosses call me racist for complaining and have said that if I keep on they will stop me selling "*Big Issue*".

The Romanians and Bulgarians (Roma) what are they doing for Britain ?

Dear comrades, here are some news from the Struggle in our country Hellas (Greece).

1. Our party, GOLDEN DAWN won 3rd place and 17 MP's at the 25th January 2015 elections, despite the total ban by the mainstream media and our very meagre resources.
2. The Imia Demonstration took place successfully in the evening hours of the 31st January 2015, with thousands of Nationalists attending, including delegations from Germany, France, Italy and Poland.
3. Towards the end of March, the Leader of Golden Dawn Nikolaos Michalsliakos, as well as two other MP's and other comrades will be out of jail, awaiting eagerly their trial which is to start on the 20th of April !
Then, it will be our turn to SPEAK THE TRUTH !

(We are now informed that the judge at the Golden Dawn trial is a Jewess, so farewell to a fair trial !)

RADICAL OPINIONS

Opinions expressed in this column do not necessarily reflect the official British Movement position or policy but are included to stimulate debate and discussion on a wide range of topics of interest to our National Socialist and racial Nationalist readership.

Broadening the Appeal of Our Propaganda - 'more honey, less vinegar'. An American White activist offers his opinions

Dear British comrades at Broadsword,

"Broadsword Issue 50 was very motivating. I must note the rhetorical nature of Broadsword and the obvious problems we all face in the West that fill most of Broadsword's pages. I wish to encourage you comrades to temper the exposure of our problems with news of successful developments; self-help information, personal finance tips and all round cultural enrichment. I believe that some times our propaganda discourages newcomers. We need more honey than vinegar, sunshine rather than lightning. Broadsword is a good measure of both, which illustrates its N.S. essence."

Michael B. Texas (POW in a US Prison)

Broadsword editor responds:

This letter raises some valid points about what kind

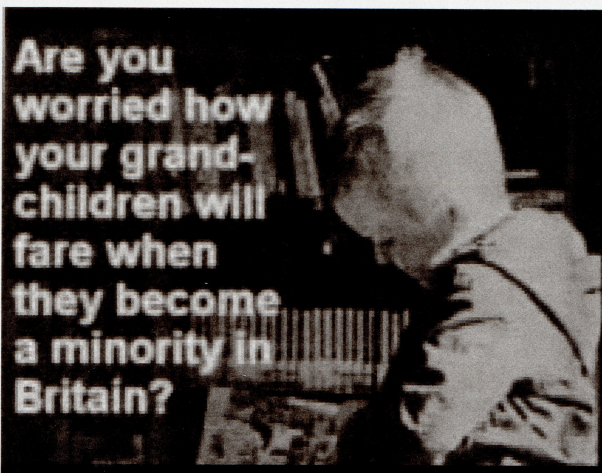

of articles we should present in our publications. More to the point we accept that there is a lot of material that we could be putting in print but lack the space, time and resources to do so.

British Movement does put a lot of the regular Movement news out on the internet on our BM blog sites; NS Outlook and the Northland Forum.

We invite our readers to submit ideas for new series of articles, especially anything which can offer *"honey rather than vinegar and sunshine rather than lightning"*.

Broadsword is particularly keen to include articles and features that will appeal to younger readers, teenagers in particular as well as material that interests more women readers.

We are aware that the younger generation prefers to receive information on-line or digitally via social media but there is still scope for the printed word in putting out the NS message.

BUILDING AN N.S. FUTURE

The creation of a National Socialist state in Great Britain is the ultimate goal of British Movement, and in order to achieve the creation of a National Socialist 'New Order' in the UK, we must first create the political conditions by which this situation can be realised.

This will be a long and difficult struggle, but it can be done, and for the future of our people it must be done. We must right the wrongs inflicted upon our people in the name of multi-racialism and multi-culturalism, we must regain the birth-right of our people taken from them by stealth and the lies of democratic politicians and Left-wing ideologists. So-called progressive thinkers and opinion makers who have corrupted our nation's psyche.

Building The National Socialist Revolution

Brick By Brick - Piece By Piece.

We Will Have Our Country Back!

We Must Convince The British People That The Existing 'Democratic' Political System Is Not To Be Trusted. Our Propaganda Must Generate A Rejection Of The Mainstream Political Parties And The Civil Service And The System That Supports Them. The British People Must Reject The Failed 'Old-Gang' Establishment And Look Towards A New Order - A Radical National Socialist Alternative.

Taking Advantage of the Changing Political Climate

Too many British racial Nationalist supporters seem to live in a bubble, where they are permanently looking forward to some distant future when the conditions will be 'just right' and that without major effort on anyone's part the forces of Nationalism will step straight into power.

What those dreamers fail to grasp is that the social and economic conditions they think will happen, will not favour the forces of racial Nationalism or National Socialism unless those radical forces have put in a lot of ground work first. As the heading caption on this page states, BNSM is building the National Socialist revolution "*Brick by Brick*".

That means that dedicated and committed people have worked long and hard to build up the grass roots foundations; to spread the NS propaganda to

influence the non-political British public, to generate the funds needed to develop NS businesses, to secure the BM Land Fund, to equip the Movement with the necessary tools to operate offices and printing and publishing services.

In order to take advantage of the shifting situation in British politics and the slow disintegration of the old Establishment political parties the ground work needs to be done.

The NS revolution will not be built by sitting at home dreaming about it. It will be built on the back of the campaigns and activities undertaken by real NS activists, people who genuinely believe in the Cause and are prepared to reject the easy options offered by multi-racial Britain.

The White British have become lazy, complacent and apathetic which is just what our racial and political enemies want. We must counter that and shake them out of their torpor - Britain Awake !

Dear Broadsword

Britain simply cannot afford to be the world's policeman - neither can it afford to be the world's carer. We have enough pressing social problems here in our own unhappy homeland, such as families living in dire poverty, and elderly, neglected folk living in utter loneliness and despair. Dear Broadsword

In Broadsword issue 50 you asked the question on page 3 - The Werewolf Column - "To March or Not to March?"

Well, I understand the argument against the big turnouts of the 1970's and 1980's, but it is good to see the British Movement Sunwheel flags getting out on the streets again.

I follow your interesting blog sites and the number of street activities where BM is raising the Movement banner is encouraging. I get a bit nostalgic for the Old Days when hundreds of BM activists marched through London, but I realise that in today's multi-culti society the powers that be would never allow such marches again.

Nevertheless it seems that some of our street activists are prepared to take the risk and put themselves out there. It can only be of benefit to BM to have our Sunwheel flag recognised by the British public as a symbol of White Resistance.

Hail Victory - WGW - West Yorkshire.

Dear Broadsword,

I see that the case of the black man being pushed off a train in France by Chelsea fans has made head-lines in the national newspapers, as well as on TV and radio.

Even Cameron has raised the matter in Parliament. 'Well' I wonder if it was a train full of black people and a white man was abused and pushed off the train. I can't forsee the same reaction by the media.

It seems that if you are black, a Muslim, an Asian, this government will bend over backwards for you.

But - if you are Anglo-Saxon, this government has very little time for you. Our cultures are gradually fading away, so is the Anglo-Saxon race.

I am 77 years old and I am Anglo-Saxon, Aryan and proud. In the late 1960's and early '70's I was a member of NF, then BNP, now a BM National Socialist.

We have tried for many years, but you can't wake up the

Dear Broadsword,

Here is a question for your readers.
Who wrote the following words?

"On this planet of ours human culture and civilisation are indissolubly bound up with the presence of the Aryan. If he should be exterminated or subjugated, then the dark shroud of a new barbarian era would enfold the Earth."

The answer is:

Adolf Hitler in his prophetic and remarkable book,
Mein Kampf.

Veteran Colin Jordan Loyalist
English Midlands.

Dear Broadsword,

If we are to believe the media, anti-Semitism has reared its head in Britain. I must say, I have not read of many Jews being killed or their homes or property set alight.

Top men in the Israeli government have told Jews in Europe to flee to Israel. I think they play on the fears of Jews to get them into their Zionist state in the Middle East. Thus the constant Holocaust propaganda in the media appears designed to soften Jews up, putting them in a condition of fear and alarm. Jews should wake up to the crafty policy being adopted towards them in order to panic them into going to Israel.

Israel is perhaps the only country in the world where Jews are welcomed unreservedly; but here is a strange set of facts, Jews don't want to go and live in Israel. This suggests to me that Jews set our culture above that exists in Israel. In fact, I read a couple of years ago that over 100,000 Jews had left Israel and moved to the West; that is the USA, Europe and Britain. So how come the media keeps ranting on about the rise of anti-Semitism in non-Jewish lands?

I believe that it's all guilt and dirty political propaganda being put across to us, the non-Jews. It is designed to make Jews a special case, not subject to criticism, to be considered as superior, bound for highly paid white-collar jobs in finance, the public sector and journalism.

I suppose it is very flattering to have Britain preferred before the Jewish State of Israel. It shows our high culture is preferable doesn't it?

At least that is the way I interpret their reluctance to make their very own personal Aliyah to their Jewish State in the Middle East. (Not forgetting Birobidzan in the Russian Far East).

HM Glasgow.

British people. What does it take?

This country is fading fast.

I was born in the East End, spent many years in my youth in Stratford and Mile End; that was a good area, good East End Aryan people. Sadly now they have gone. All you see there now is heaps of rubbish, and a sea of black faces. I have six grandchildren and I fear for their future.

I saw a documentary on TV recently about St. George's Day in a village in the Midlands, and they flew the old White Dragon flag. So there are still good Anglo-Saxons there. It made me proud.

I wonder if we will ever get a 'Fuhrer' who cares for his own people? I don't think it will be in my lifetime, All I can say is "Britain Awake!"

D. O. Essex.

December 2014 French Government Agrees to Pay \$60 Million (US dollars) to 'Holocaust Survivors'.

A mere 69 years since the end of the Second World War and yet another massive compensation payment scheme for 'Holocaust survivors' has been brokered by the US Government.

This time the \$60 Million will be paid from a joint US-French Government fund to the 'survivors' and/or relatives of those who claimed to have been deported on trains and rolling stock belonging to the French state railway SNCF, between 1940 and 1945.

This compensation deal is intended to end ongoing legal actions against SNCF in the American courts by Holocaust 'victims'.

According to official figures the French Government has paid out more than \$6 billion US dollars in compensation to 'Holocaust survivors' since the 1950's, but those payments were only to those who were proven to be French citizens or held a special status under French law.

The new \$60 million dollar scheme will make payments to claimants mostly outside France, principally in the USA and Israel.

US COURT DECLARES

"Any transaction in 1935, where the sellers on the one side were Jews and the buyer on the other side was the Nazi state itself, is by definition a void transaction."

The surviving heirs of pre-war German Jewish art dealers are suing the German government and the Prussian Heritage Foundation for the return of an art collection sold to the State of Prussia in 1935 by Jewish art dealers.

The lawsuit has been filed in the USA and claims that although the collection was legally sold under German law in 1935 to the State of Prussia, the Jewish claimants are arguing that this was a so-called 'forced sale' to a National Socialist state body, the sale was therefore not legitimate.

The value of the art collection, currently housed in a number of German museums, is valued at an estimated £146 million - roughly \$226 million (US).

American lawyers acting for the claimants, some resident in Britain, some resident in the USA, have stated in court that the very fact that the Jewish owners sold the art collection to the 'Nazi State' means that the contract and transaction has to be considered illegal and void. And that although the original owners were paid for the collection at the time, the original purchase no longer counts, therefore the entire collection should be returned to the surviving members of the original art dealer's family.

The present day German culture minister Monika Grütters has publicly stated that the claim is "difficult to understand."
